New Legislature Orders Probe Of SGA Election

Committee Named To Undertake Investigation

Plans for investigation of the alleged fraud in the recent SGA election formed the major portion of the business session at the first meeting of the new legislature last

tee, composed of the dean of men, senior men, held its annual spring dean of women, one faculty mem- initiation recently at the home of ber, and three students, one of Henry Hillenmeyer on the George whom must be the chairman of town Road

Prof. John Horine, of the engin-Henry Bramblet who is chairman H. Hunt. Vine Grove; Sam C. Mcof the judiciary committee will fill Elroy. Morganfield; Melvin C. student representatives to the stan- ter, Mansfield, Ohio; Othor R. Shad-

members to the committee.

This request. Jim Collier, SGA Schaffer, Henshaw. president, said, was made in order that the investigation committee might be kept absolutely impartial.

faculty conduct the investigation. but they refused on the grounds that students should solve their own problems," Collier said. "So we are anxious that the investigating group be composed of non-fraternity and non-law students in order to keep May 14 it as Impartial as possible

During the meeting Elizabeth Chapman, arts and sciences senior women's representative, was named secretary of the legislature, and Jim Hurt, Independent, was appointed chairman of the loan committee.

Richard Adams, retiring representative from the graduate school. addressed the legislature briefly, as did Collier. The latter outlined a plan for the organization of a legislative cabinet next year. It will be composed of the chairmen of the various committees, whom Coilier asked to be allowed to appoint

DANCE RECITAL IS SCHEDULED

Program To Be Presented At **Guignol Theatre**

The fourth annual recital of the Modern Dance club will be presented at 8:30 p.m. Thursday and Friday at Guignol theater, under the auspices of the physical education de-

fitted the Civil War.

The editorial, which was enticled The Duty of Newspapers." follows.)

The country is engaged in a war upon which liang momentous consequences, not alone to our government considered as an impersonation of the nation's dignity and honor but to every man. woman and child living beneath our country's flag. It is a war for national existence, and for individual freedom, and prosperity, and happiness. It comes home to every man's heart, it touches him nearly in all the relations of life. is a part of his daily thoughts and his secreprayers. For the time it is the universal business.

Our interest in it is not less than our neighbea's. Our feelings are as vitally concerned, our property is as seriously imperiled by want of success now, or complete failure by and by. But we cannot regard it alone from an individual and sellish standpoint. We have duties to the public which we must discharge

By their own assumptions, or by quasi-popular consent, "leading and influential journals like our own are in some som regarded as watchmen on the walls, to look for approach of danger toward what their leaders held dear. They have had thrust upon them the duty, not always pleasant, of acting as conservators of the public good, often at the expense of their private interests. Men look to them not only for facts but for opinions. They do not often create, but they shape and give direction to public sentiment. They are the narrators of facts, the exponents of policy, the enemies of wrong.

Then other, in time of war, is not a whit less responsible, the infinitely more delicare, than in what we say States. For our own needs, but in what we say States for our own needs to their petrolin a period of peace. They deal with excited and do, in this woellil crisis, we profess to be have appeared to be some basis, for our own needs. In their petrol-tens for tennis courts purposes. opinion, with passions painfully aroused, and animated by motives as unsellish and by patriot. States fluctuated over the course same reason only a financial interwith fears that know no reason. Their duties isin as pure as belong to men anywhere. are quadrupled and their liabilities to the pubhe indefinitely magnified. On that account they should not shrink from the responsibilities of their position. As dangers thicken, their courage should rise to meet them. To avoid expression of what high public interests demand, because

We need not say that The Tribune, whatever us other faults, has not that of timidity. We are not of those who believe that, because the country is in danger and all private interests are * It was reprinted in the Washington Times Her- illusatened, or because military power overrides the civil law, it is the province of journalism of He are printing it in The Kernel because it—the better sort to keep silence when incompetenseems to fit the present World War as well as it ex undertakes the management of public allairs. or hold its peace when unblushing rascality under the guise of patriotism is doing its deadly

We Need Every College Man In Officers' Training

* To Man the Mightiest Air Army in the World *

Make Your Choice This Week For Present or Future Officers' Training

IF your blood boils at the very

thought of an enslaved world ... If Jap treachery and Nazi savagery make you see red and itch for a gun -calm yourself with the promise that we shall pay them back with com-pound interest!

We shall-and you as a college man now have the opportunity of serving as a Flying Officer-a Bombardier, Navigator or Pilot-with that branch of service which will do that paying back in person-the U.S. Army Air Forces!

Under the new Army Air Force Reserve Plan-if you are a Senior or wish to leave school-apply now for your Aviation Cadet training.

You and your friends can share together the work and fun of flight training, and after approximately 8 months-earn the right to be flying officers in the U.S. Army Air Forces!

On the other hand, if you are a Freshman, Sophomore or Junioryou can, if you like, continue your studies under the Deferred Service Plan of the Army Air Forces-and become better prepared for Officers' Training later.

New Simplified Requirements

To qualify you must be 18 to 26 (inclusive), physically fit-and pass a new, simplified mental test which college men find easy.

When you are ready-and facilities are ready-you begin as au

THREE ENLISTMENT PLANS FOR COLLEGE MEN

Juniors-Sophomores-Freshmen Moy Continue Their Education

1. A new plan allows Juniors, Sophomores and Freshmen, aged 18 to 26, inclusive, to enlist in the Air Force Enlisted Reserve and continue their schooling, provided they maintain satisfactory scholastic standing.

> All College Men May Enlist for Immediate Service

2. All college students may enlist as privates in the Army Air Forces (unassigned) and serve there until their turns come for Aviation Cadet training.

3. All college students may enlist in the Air Force Enlisted Reserve and wait until ordered to report for Asiation Cadet training. Upon graduation or withdrawal

from college, men will be assigned

to active duty at a training center as facilities become available. If the necessity of war demands, the deferred status in the Army Reserve may be terminated at any

time by the Secretary of War.

The new Army Air Force Enlisted Reserve Plan is port of an over-all Army Enlisted Reserve Carps program will to be announced. This program will provide apportunities for callege mee to enlist in other branches at the Army to enist in other branches at the Arr on a deferred basis and to contin their education through graduation a satisfactory standard of work maintained. In case of necessity t Secretary of War shall determine wh they may be colled to active duty.

It is understood that men so enlisted Il have the appartunity of competing vacancies in officer's candidate

This plan has been approved in the bellet that continuonce of education will develop capacities for leadersh. Reserve enlistment will not alter regulations regarding established R. O. T. C. plans.)

Aviation Cadet at \$75 a month, with expenses paid.

If you have majored in science or engineering you can try for a commission in the ground crew-in Armament, Communications, Engi-

neering, Meteorology, Photography. As a Second Lieutenant on active duty, your pay ranges from \$183 to \$245 a month.

80% Have Won Commissions

Due to thorough training-about four out of every five Aviation Cadets this past year received Second Lieutenants' commissions—of which 67% are now flying officers.

The tremendous expansion of the Air Forces should assure rapid advancement in all branches. And after the war-you'll be ready for the evergrowing opportunities in aviation.

Settle Your Service Now

The years ahead are war years-and every college man should make his plans accordingly.

To make America supreme in the air we need every college man who can qualify for active or deferred service. So take advantage now of this op-

tion. You may never again have such opportunities. See your Faculty Air Force Advisor for information and help with details. Join the thousands of America's col-

lege men who are enlisting this week! NOTE: If you are under 21, you will need your parents' or guardian's

consent, Birth certificates and three letters of recommendation will be required of all applicants. Obtain the forms and send them

Education Must Go On, Donovan Says

(Continued from Page One) generation of youth for governnental service.

The major assignments of a soright-eenter field. The Commodores cial lengineer, Dr. Donowan deadded another run in the third as seribed as establishing a society Higgins beat out an Infield hit, stole where justice shall prevail, prosecond, took third on Moore's single viding honest work for all men, to center, and scored after Hammer finding ways and means to distribute goods and service to people, eliminating dire poverty, reducing crime, caring for the unfortunate. solving our race problems, cultivating the intellectual and spiritual tucky's Wildcats last week end when long single. Kuhn singled, putting freedom of our people and, above all, bringing about universal peace GOLF

Observing that government is employing more and more people solution is not ln fightlng an inevitable tendency but ln changing the outlook of those who enter government service."

He sald youth needs no "schooling in the artfulness of politics but

Future Plans Discussed Discussing future plans for the

University, he predicted that: "The University of Kentucky second and crossed the plate with and guiding those who ask for aid. "It will concern itself more and

The Wildcats gathered nine hits generation of new leaders who have Cats littless while fanning one bats- of life based on Christian ethics. He termed Kentucky a "sleeping giant staked to earth by tin

threads tled by Liliiputians. Kentucky needs only to be aroused from her slumber, then she will shake herself, rub her eyes, rise and discover her might and go forward to her destiny. It is the Universltv's tasks to cut the threads that bind this giant to earth." That They May Return

"Then," he predicted, "the 965, 188 native born sons and daughters who have sought residence in other states can return again home to the land of their fathers, where peace and pienty may abound."

Turning again to the hopes of the University ,he said "this campus will be expanded and new buildings will arise. I see gathered here a community of scholars and students living in an atmosphere of and to publish the truths their researches reveal to them.

In his address. Dr. Holland stat-"Under the guidance of such ties will be able to contribute significantly to the defeat of the barbaric ldeology against which our

nation is pitted. Dr. Holland asserted that not only is the present world conflict a types of education—the generous, democratic education for the many. out of whose happiness and success and success and health comes the strength of are today attending the University posters and do other work for the out of whose happiness and success philosophy is a higher criterion than Intelligence and ability."

Lauds Selective Service inaugural dinner last night. Dr. Bevis lauded Kentucky and other universitles for their

stand to date in the present war emergeney. He said: "In this conflict men of the unlversities have neither avoided military service through a trumped up 'right of elergy' or rushed lndiscriminately to the recruiting stations. Regijizng, as the government does, that training is neces-

most fitted. Dr. Bevis also pointed out the tion's history, a crisis education must be made to meet."
